HEAD BOOSTING OGDEN COURNEY

Past Master in Manufacture of Balloon Fuel After Gang of Local Trap Shooters.

Jim Head, whose engraved business card reads "James L. Head, Peru, Ind.," is in the city. Jim's occupation is one of handing out a perfected brand of baked atmosphere. For pleasure Head is a champion blue rock smasher. Some who do not know him will imagine that shooting blue rocks is his business, but on a short acquaintance soon learn that Jim is really strong point, and the one on which he draws his salary, is dealing out ozone that is as real as the ozone that it could only be bottled and confined.

Jim is in town boosting the Ogden Mountain tournament. Archie Bigelow, Gus Becker, Matt and John Brown, the big four of the little village north of Salt Lake are not slow in the boosting line. Of course when they get together, they are only selling platters alongside a stake horse when compared with Head, in this particular line of business. So they sent for James L. of Peru and turned over the tournament to him with instructions to touch off the fireworks and keep 'em going skyward until the thing was over.

Head started for Salt Lake to corral the crowd in the shooting line. James came at a time when Dorsey Burgess was out of the city, which is leading from sneak. Dorsey is the only shooter hereabouts who can start with Head in their particular line of handing out balloon fuel. Of course when they get together, Head is the odds on favorite, but Dorsey is in the running at the start at least.

Head arranged a special shoot at the local traps for today and a big crowd of local enthusiasts will be on hand. At this time old Peru, Ind., will paint a word photo of the good time at hand on Friday and Saturday of this week, and its a good bet the gang will fall for the talk and make the trip to Ogden.

Cattlemen at Manti Organizing Expedition to Exterminate Bear.

(Special to The Herald.)
Manti, Ind., April 29.—This section are becoming so numerous that cattlemen are missing quite a number of their stock, and during the week they intend butchering some of their poorest cattle and taking them in the vicinity of Manti where a number of local sportsmen intend meeting them, if they show up, next Monday morning. T. H. Fitzgerald, president of the Utah Irrigation and Power company, and W. A. Wiley of the Anderson-Taylor company, both of Salt Lake City, will join some of our local sportsmen the first day of the coming week, and it is expected that all bear and six-mile canyons will either die or hunt their holes. The cattlemen report that last year not less than forty head of their stock were destroyed by bear, and they are going to make quite an effort to make them less numerous. Mayor Anderson informed your correspondent that there will possibly be more from the Utah metropolis who will take part in this sport and that a large number from Manti will be in attendance. The Salt Lakers are expected to arrive in Manti Sunday next.

INTER-CLASS CONTESTS.

Inter-class athletics are on the boom at this university. The rivalry consists of contests in almost every department of the sport. At present the classes meet each other in match games and no record is kept of the contests which might lead to the allotting of the school championship in class athletics. An effort is being made to have the classes engaged in a series of baseball games and also meet in an inter-class track meet so that the disputes regarding the class athletic championships may be settled. On Wednesday the sophomores and the juniors will have the first dual meet.

RENDEZVOUS DISCOVERED

"Rusty Dozen" Gang of West Jordan Will Be Broken Up by Officers.

Bingham Junction, April 29.—The workings of "The Rusty Dozen" gang, whose organization consists of twelve boys between the ages of 16 and 22 years at West Jordan, Utah, has been brought to light. It is now known that they have had a purpose in riding out onto the prairie at regular intervals a few miles west of the town. It is here that an organization has been effected, with its officers, oaths, initiation ceremonies, etc., and to have a good time in general. It is not definitely known what brought the organization about, but some have suggested that it is simply the love of adventure and a result of reading dime novels. Be that as it may, the gang has been a nuisance to the town in general for some time past. The disturbances caused at the dances, entertainments and at Mutual Improvement meetings for some time have been traceable to this crowd of would-be outlaws, who take delight in disturbing the peace. The membership is limited to twelve, hence the name "Rusty Dozen." In going to and from their meetings they generally whoop up the town and try to run over any one who interferes with them. The whole community is worked up over the affair and dire threats have been made by some of the citizens to place a number of the gang in jail unless they mend their ways. It is also understood that these under 18 years of age, two in particular, are to be sent to the reform school. Deputy sheriffs are now working on the proposition with the expectation of breaking up the organization and restoring order in the disturbed town.

OGDEN'S CLEVER CATCH

May Be Same Burglars Who Infested American Fork—One Has Letter Writing Habit.

American Fork, April 29.—The three burglars who were arrested in Ogden yesterday are thought to be part of the same gang that was in American Fork the first part of the past week, three of whom the city marshal had in jail here on suspicion of being implicated in the jewelry robbery in Salt Lake City a short time ago. One of the suspects posed as being deaf and dumb. He gave his name as James A. Woods and was trying to dispose of watches and other cheap jewelry. After holding him and the others in jail for a day or two, while making investigation, it was shown that they had nothing to do with the Salt Lake robbery and they were turned loose. The day after turning them loose Marshal Logsdon received a letter from Salt Lake addressed to Woods, in care of the jailer of American Fork. He opened it and found it was written by Stephen Quinn, one of the men who has been arrested in Ogden for burglary, and the contents of which, given below, shows that they are members of the same gang. Marshal Logsdon was satisfied when he had them in charge here that they were bad men, but he could not get any evidence sufficient to hold them and was compelled to let them go.

Copy of Letter.

"Salt Lake City, Utah, April 24, 1907.
"James A. Woods—Dear Boy: I here that you are in trouble. A man came up to me today of this morning and told me you got arrested for something or another now I would like to know what you have done so that you would get arrested, but if you would do as I told you and come here you wouldn't be getting in bad company make all your wishes known to me and may the Lord Bless you. Your truly,
STEPHEN QUINN,

S.S.S. REMOVES BLOOD HUMORS

When the blood is pure and healthy the skin will be soft, smooth and free from eruptions, but when the blood becomes infected with some unhealthy humor the effect is shown by rashes, eruptions, boils and pimples, or other disfiguring and annoying skin disease. The skin is provided with countless pores and glands which act as a drainage system to rid the body of impurities through the perspiration that is constantly passing through these little tubes. There are other glands that pour out on the skin an oily substance to keep it soft and pliable. When the blood becomes filled with humors and acids these are thrown off through the pores and glands, burning and irritating the skin and drying up the natural oils so that we have not only Acne, Eczema, Salt Rheum, etc., but such dry, scaly skin affections as Tetter, Psoriasis, and kindred troubles. The treatment of skin troubles with salves, washes, lotions, etc., is not along the right line. True, such treatment relieves some of the itching and discomfort and aids in keeping the skin clear, but it does not reach the real cause of the trouble, which are humors in the blood, and it can therefore have no real curative effect on these skin affections. S. S. S., a gentle acting and perfect blood purifier, is the best and quickest treatment. It goes down into the blood and removes the humors, fiery acids and poisons from the circulation, cools the overheated blood, and by sending a fresh stream of nourishing blood to the skin permanently cures skin diseases of every character. S. S. S. is made entirely of health producing roots, herbs and barks, and is an absolutely safe remedy for young or old. S. S. S. cures Eczema, Acne, Salt Rheum, Tetter, Psoriasis, and all other disagreeable and unsightly eruptions of the skin. Special book on Skin Diseases and any medical advice desired furnished free to all who write.
